

ARMD

Version 5.8 Release Announcement

➤ Dear Colleague:

We are pleased to announce the release of **ARMD** version **5.8**.

Enclosed you will find a CD that contains ARMD V5.8 with all its modules. If you did not receive a CD, you can download the compressed file “**ARMD58G2-Release130311.zip**” from the downloads section of RBTS web site (www.rbts.com).

In addition, the following items maybe enclosed or electronically attached.

- A- A brief description of the new features implemented in the current release “**armd58-flyer.pdf**”.
- B- Installation procedures for installing ARMD V58 on your computer system. It also contains instructions for modifying the ARMD memory key license configuration for operation with ARMD V5.8 “**armd58-installation-and-key-update.pdf**”.

We recommend that you review the enclosed information prior to installing the new version.

As usual, if you have any questions during the installation or the operation of the software, please let us know.
